want to live in your very own countryside
home, then our new property
management solutions might be ideal for
you. We understand that people want to
stay in their own homes without much
hassle, but you can't just sign off on
everything. This is where our property
management solutions can help. We will
manage your local and rural property in
very much the same way as we would
manage a one or two bedroom flat. We
will check in with you every day, contact
the landlord and give you all the
information you need to find out if
everything is running as it should. We will
also check for any potential problems that
you have been notified about and allow
you access whenever you need to. The
main benefit of this is that we can make
sure you can stay in your home without
you having to call an inspector every day.

If you have an office or school that needs a new fence, we can organise this for you. It will get checked for safety and is then added to your lease. We can also manage any other maintenance or building work that you have asked us to carry out. It is important that we manage your property as quickly as possible to minimise any potential damage to your home. If we think there is something that needs doing then we will contact the relevant authorities. We know what steps to take to ensure your safety, but if it is something minor then we can get the house managers on it straight away. Our team members have a wealth of experience so they understand how to deal with these issues in the most efficient way. We also give an outstanding service when it comes to showing you the property. We will check that it is clean, tidy and safe before we advertise it, and we will always have a

clean, friendly member of staff waiting to greet you when you first enter. If you have any problems with the property, or need any building work done, we
